Aalberts University

Oct. 6th & 7th, 2026

OSHKOSH, WI

A two-day educational event intended for engineers, purchasing agents, and other professionals who could benefit from this expertise.

Aalberts will provide a catered lunch and dinner

Attendees are responsible for their own transportation and lodging.

Space is limited.

Metallurgy, metal casting and heat treatment are complex and technical subjects. The goal of this event is to provide education and inspiration in the areas of casting production and heat treatment of iron, steel, aluminum, super alloy and additive components.

Aalberts surface technologies is a global leader in metallurgical technology and training. The expert-level instructors at this seminar will help you to meet your operational goals. The agenda is as follows:

Night Before
6:00 PM Dinner at TBD
Day 1
8:00 AM Introduction – Logistics, history, participant introductions
9:00 AM Overview of Heat Treatment
BREAK
10:45 AM Ferrous Heat Treatment
LUNCH
1:00 PM Marquenching
2:00 PM Travel to Aalberts Plant
2:30 PM Tour of the Aalberts Plant
6:00 PM Arrival, 6:15 Dinner at TBD
Day 2
8:00 AM Austempering 101 including cast iron and steel
BREAK
11:00 AM Designing with Ductile Iron and ADI
LUNCH
1:00 PM Surface Treatments including nitriding and FNC
2:00 PM Heat Treatment of Aluminum
3:00 PM HIP – optional based on participant interest

All education costs and materials will be covered by Aalberts surface technologies. In addition, Aalberts will provide lunches both days, as well as dinner the night before class and on the first night. Attendees are responsible for their own transportation and lodging.

Session location:

Oshkosh Marriott Waterfront Hotel & Convention Center | 1 N. Main St | Oshkosh, WI 54901 | 920-230-3200. The hotel has offered us a rate of \$139/night, [click here](#) to book your room.

Aalberts surface technologies location:

4000 WI-91 | Oshkosh, WI 54904 | 920-235-2001

Additional area lodging:

Hilton Garden Inn | 1355 W. 20th Ave. | Oshkosh, WI 54902 | 920-966-1300
Wingate by Wyndham | 1800 S. Koeller St. | Oshkosh, WI 54902 | 920-808-2229

Restaurants:

Mon. – RESTAURANT TBD
Tues. – RESTAURANT TBD

Note: Attendees are responsible for their own transportation to and from Aalberts surface technologies. Carpooling is encouraged.

INSTRUCTOR BIOGRAPHIES

Kathy L. Hayrynen, PhD, FASM - Kathy has a BS, MS and PhD in Metallurgical Engineering from Michigan Technological University. Her graduate work focused on production of ductile iron and ADI. Following a post-doctoral research position on Ausformed/Austempered Ductile, Kathy joined Aalberts surface technologies (Applied Process) companies in 1995. She is currently the Vice President of Research & Development. Kathy is well known in the Austempering world having authored and co-authored many papers on ADI and frequently speaks on said topics. She serves on the Board of Directors for the Detroit-Windsor AFS Chapter, the ASM Heat Treating Society, the Center for Heat Treating Excellence (CHTE) at WPI, the ASM Materials Education Foundation and is an emeritus member of the External Advisory Board for the Department of Materials Science & Engineering at Michigan Tech. Kathy has received several industry/academic honors including: an AFS Award of Scientific Merit, an AFS Ray H. Witt Management Award, the AFS Women in Metalcasting Award of Excellence, AFS John H. Whiting Gold Medal, ASM Fellow, Alpha Sigma Mu Fellow, ASM Education Foundation George Roberts Award, MTU Alumni Outstanding Service Award and was inducted into the MSE Academy at Michigan Tech. Kathy is a passionate advocate of STEM education and spends her spare time organizing an annual ASM Teachers' Materials Camp that enables high school and middle school teachers to offer materials-based education to their students.

Angella Sell - Angella received her BS and MS in Metallurgical Engineering from Missouri University of Science & Technology. After graduation Angella went to work in the ferrous foundry industry in eastern Ohio for five years. There she gained experience as a Plant Metallurgist, a Quality Engineer, and met her husband Dan. Angella joined Aalberts surface technologies (Applied Process) in 2015 as a Research and Development Engineer where she manages the lab and equipment, assists with cycle development, and provides technical support for plant production and customers. Angella is a past Chair of the ASM Detroit Chapter. She has been recognized with the ASM Detroit President's Award. Angella is also a past Chair of the AFS Cast Iron Research Committee and currently serves as the Vice-Chair of the AFS Cast Iron Executive Committee.

Name: _____

Title: _____

Company: _____

Address: _____

Phone #: _____

Email: _____

What industry do you work in: __casting __forging __extrusion __heat treat __machining

What materials do you work with: __cast iron __steel __aluminum __stainless steel/tool steel
__nickel-base alloy __titanium

Does your company use commercial or captive heat treatment? _____

Do you have a past, current, or upcoming project you'd like to discuss during the session?? If yes,
please explain:

Attendance, please check all that apply:

Evening Before Class: Dinner

☐Yes

☐No

Day One: Class & Lunch

☐Yes

☐No

Day One: Dinner

☐Yes

☐No

Day Two: Class & Lunch

☐Yes

☐No

Aalberts surface technologies is a Defense Contractor and must know the citizenship status of all visitors. Please check the box which accurately describes your status (required):

United States

☐ Citizen

☐ Green Card Holder

☐ Visa

List type if applicable: _____

Please report any dietary restrictions, including food allergies: _____

We will do our best to accommodate you.
